- ✓ GLOBAL EXPERTISE
- ✓ TRACEABILITY

# QUALITY. SAFETY. SOLUTIONS.

## BRECON'S 360° AUDITING PROGRAM

### UNDERSTANDING MAP™

#### **What is MAP™ and how is it different?**

Our certified team benchmarks each and every manufacture partner **across over 400 points covering food safety, product quality, environmental responsibility and business culture.** Our QA team equally conducts onsite factory visits to validate compliance with Good Manufacturing Practices.

#### **How do I benefit from MAP™ if I am a customer?**

Clients partnering with Brecon receive the benefit of having access to a global network of MAP™ approved facilities. The thorough assessment of our manufacture partners provides us with the **unique insight required to create the best fitting partnerships throughout our value-added supply chain.**

Our QA team is skilled, competent and possesses the resources required to **properly navigate the sea of regulations, inspections, and compliance requirements** so our clients can focus on growing their business.

#### **How do I benefit from MAP™ if I am a supplier?**

MAP™ approved facilities are **prioritized for all business opportunities and are preferred candidates** for assessment under our MAP regulatory food safety modules e.g. FSMA and SFCR.

Our business development team prioritizes MAP™ approved partners for all of our international business opportunities.

#### **How can MAP™ reduce my paperwork?**

Templates and questionnaires are time consuming and often filled with redundancy. Working with the Brecon MAP™ program **eliminates this headache entirely.** We fill out the paperwork, we cross reference supplier certifications with customer specifications and we review and complete all necessary documents; **you save time and your QA team can focus on your quality checks and balances.**
